Permissions

You will require an Access Role with the following permissions:

- General Options
- 1. Navigate from the Home page to Administrative Settings | Tailoring | General Options.

2. From the General Options menu, click Session Timeout.

| ailoring General Options | | | | | |
|---|-------------------|--|---------------------|-----------------|----------|
| General Details Employees | Self Registration | Delegates | Declaration | Session Timeout | Expedite |
| Session Timeout Options | 5 | | | | |
| Minutes of inactivity after which user is logged out* | 30 | | ? | | |
| Seconds for timeout countdown.* | 30 | `````````````````````````````````````` | ? | | |
| | | | | | |

| Option | Description |
|--|--|
| Minutes of inactivity after which user is logged out* | The number of minutes a user is logged in to the system and left idle for before they receive a notification of logout. You can select either, 5, 10, 20, 30, 45, 60 or 90 minutes before the product displays the notification. |

| Option | Description |
|------------------------|---|
| Seconds for timeout | The time that the notification will remain on the screen can be set between 20 and 120 seconds. After this time, the user will be logged off. |
| countdown* | If another tab is open and times out while you are browsing your current tab, you will be logged out of your current session. |

3. Click **Save** to confirm or **Cancel** to discard any changes and return to the Tailoring page.
