

Branding - Feature Overview

Last Modified on 23/02/2021 3:52 pm GMT

Overview

Branding your Selenity Expenses system by adopting your organisation's corporate colour scheme and company logo can create a familiar experience for your users, particularly useful upon initial implementation.

- **Company Logo** - Upload your organisation's logo so that it is visible at the top of each page within Selenity Expenses.
- **Colours** - Customise your colour scheme within Selenity Expenses by changing individual components such as tables and menus. You can specify the colours for each individual element of a page, as shown in the examples below:

Benefits

- **Employee Familiarity and Product Transition** - Making the look and feel of Selenity Expenses match your organisation's other software can aid the employee training process and system integration.
- **Brand Strength** - Our systems are complimentary to your organisation's processes and aligning your organisation's branding preferences into our product is another way to enhance this.

Features

Feature	Description
Company Logo	Add your company logo to Selenity Expenses
Colour scheme customisation	Brand your Selenity Expenses system by tailoring the colour scheme.

Implementation

1. The administrator who will configure this will require the following permissions on their Access Role:
 - Tailoring (Colours)
 - Tailoring (Company Logo)
 2. To configure your organisation's company logo, navigate from the **Home** page to **Administrative Settings | Tailoring | Company Logo**.
 3. To configure your organisation's colour scheme, navigate from the **Home** page to **Administrative Settings | Tailoring | Colours**. For more information on how to configure your company's colour scheme, view [Change your Colour Scheme](#).
