## Permissions

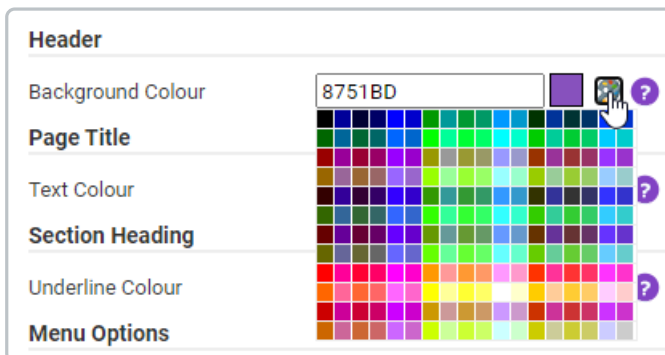

You will require an Access Role with the following permissions:

- Tailoring
- Colours

1. Navigate from the **Home** page to **Administrative Settings | Tailoring | Colours**.
2. This will display a grid of all of the customisable colour details within the product. You can change each of the colour details using the following methods:
  - Type the hexadecimal code into the available field. You may wish to speak to your organisation's Marketing/Communications team to obtain the correct hexadecimal code.

- Click the colour palette icon to display a grid of colours. You can then click a colour to select it.
