Add a Vehicle Engine Type

Manage Vehicle Engine Types

Permissions

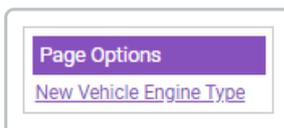

You will require an Access Role with the following permissions:

- Vehicle Engine Types

1. Navigate from the **Home** page to **Administrative Settings | Base information | Vehicle Engine Types**. This will return a list of any existing Vehicle Engine Types.

		Fuel Type ▲	Code
		Bi Fuel	
		Conversion	
		Diesel	
		Diesel Euro V	
		E85	
		Electric	
		Hybrid	
		Hybrid Electric	
		LPG	
		Other	
		Petrol	

2. Click **New Vehicle Engine Type** from the Page Options menu.

3. Complete the General Details:

New Vehicle Engine Type
Vehicle Engine Type Details

General Details

Vehicle engine type* ? Code ?

save **cancel**

General Details	Description
Vehicle Engine Type*	Enter a fuel type that the vehicle supports, for example, Petrol.
Code	Enter an abbreviated code for the fuel type. This may be beneficial for use in external systems and reporting on specific fuel types.

4. Click **Save** to store the Vehicle Engine Type.

Note: For NHS organisations that use the ESR interface, Vehicle Engine Types will automatically be created within your Assure Expenses system if they are not already present and they come down in an ESR Import File.
