Where can I view my payslip?

Your payslip is not provided by Assure Expenses. We suggest you contact your local administrator. For more information, visit [Contact your Local Administrator](#).

If you don't know who your local administrator is, we suggest you contact members of your HR team who may be able to provide you with the contact information for your local administrator or your finance team.

How do you know the system is 'working on it' when receiving an error?

The error is logged on our server and it is recorded against an internal log of any errors that happen on the Assure Expenses system so that the issue can be investigated correctly.
