Enhancements

- As part of our product rebrand, we have updated a number of assets within Expenses Mobile including product logos and branding colours.

(158048)

Bug Fixes

- Cost code owners were incorrectly provided with the option to approve a claim despite outstanding unapproved expense items which had been routed to a different cost code owner. This occurred when using Check and Pay on Expenses Mobile. If the cost code owner attempted to approve the whole claim they were presented with an error. (153982)
