Version: 2019.6.27.1

Bug Fixes

- Fixed an issue where users were unable to claim mileage if they had opted out of providing automatic licence check consent but held a valid manual licence and review. (166219)

- Fixed an issue where a returned expense was not being sent back for Expedite validation after attaching a new receipt. (166221)

- Fixed an issue that causing an error when attempting to send any system generated claim reminder emails. (166236)
