Enhancements

- We've removed some options and made it easier than even for you to start using Expenses Mobile within your organisation. Expenses Mobile will now be enabled for all organisations, meaning that all your claimants need to do is download the app and then use their Assure Expenses credentials to log in.

  - General Options - The 'Expenses Mobile' tab and the associated option (Enable Expenses Mobile) has been removed.
  - Access Roles - The 'Mobile Devices' access role element has been removed.
  - Access Roles - The 'Mobile' product access option will now be enabled by default and cannot be changed. (167163)

- We have made some adjustments to improve the security within Expenses Mobile.(153325) (168277)

- We have updated the back end of Expenses Mobile for better compatibility with Android operating systems. (168258)

Bugs

- Fixed an issue where a claim would be sent to the default approver instead of the next approver when it was submitted. This occurred when an user approved expense items but surpassed their approval limit. (164440)

- Fixed an issue where editing an expense with a foreign currency would default the exchange rate back to 1. This occurred when the exchange rate was set to something other than 1. (166366)
