Enhancements

- We've improved the speed and performance of the Check & Pay page. These tweaks also affect the 'Expense Claim Details' page, which details the expense items in a claim. (170002) (170020) (170023)
 - We've tuned the performance of GreenLight so that it is now faster to load your GreenLight Records, particularly where there are n:1 relationship attributes and filters present. (169956)
