

Mobile - Share To Feature Overview

Last Modified on 09/08/2022 1:08 pm BST

Overview

The 'Share To' feature allows you to send a PDF document straight from your mobile device to the Receipt Wallet in Expenses Mobile, where Receipt Scan will read all the key information, enabling you to add it as an expense to a claim. This can be done from web browsers such as Chrome or Safari or from storage services such as Google Drive, OneDrive, or Dropbox, saving you valuable time and effort!

Implementation

1. The Share To feature is available to all Expenses Mobile users. For guidance on how to use it, visit [Expenses Mobile - Share to Receipt Wallet](#)
