Version: 2020.6.3.5

New Feature

- We have added a brand new expense item type that will deduct a set number of miles each day. Claimants will have to exceed the number of miles configured for the expense item to receive any reimbursement. To learn how to configure the fixed mileage deduction, visit [Configure Fixed Mileage Deduction](#) (173180)

Bug Fixes

- We've fixed an issue where adding a starting odometer reading to an employee's vehicle would not save the reading correctly. (176594)
