Configure Quick Sign-in When Signing In

[Configure Quick Sign-in From the Quick Sign-in Menu](#)

[Other Details](#)

Permissions

You will require the following permissions:

- No permission required

No one really wants to keep entering their username and password every time they use an app, do they? Assure Expenses Mobile allows you to use Touch ID or Face ID with your iPhone, Biometrics with your Android device, or set up a 4-digit PIN to access the app without the need to enter your credentials. This guide will show you how to configure Quick Sign-in for your devices.

Note: Certain devices will have limited configuration options for Quick Sign-in. However, every device will have the ability to set up a PIN.

When signing in to Assure Expenses Mobile you will be asked if you want to set up Quick Sign-in.

| Option | Description |
|--------------------------|--|
| Enable Touch ID/Face ID | This applies to Apple devices and will sign you in to Assure Expenses Mobile with your Touch ID or Face ID. When you next attempt to sign in you will be prompted to use Touch ID or Face ID. |
| Enable Device Biometrics | This applies to Android devices and will sign you in to Assure Expenses Mobile with your device's biometrics. When you next attempt to sign in you will be prompted to use your biometrics. |
| Set PIN | <p>This will sign you in to Assure Expenses Mobile after you have created a 4-digit PIN.</p> <p>Ensure that the PIN you enter is a secure number which only you know. You should avoid using numbers such as your birth year or bank PIN.</p> <p>Enter the same 4-digit PIN to confirm. This will sign you in to Assure Expenses Mobile and save the PIN so that you can use it to access the app in the future.</p> |

| Option | Description |
|--------------------------------|--|
| No Thanks, I'll Try This Later | This will sign you in to Assure Expenses Mobile without setting up Quick Sign-in. If you want to set up Quick Sign-in at a later date, more information is available in the tabs at the top of this article. |
