*Version: 2020.8.26.9*

## Enhancements

- We've made a "behind the scenes" improvement to the way that we store times within Assure Expenses. All times used in My Claims and the Audit Log will now be stored in UTC (Coordinated Universal Time) format. Don't worry, users will still see times displayed in the correct local timezone when using Assure Expenses. (179924) (179925)
