Release Notes - 24 November 2022

Date: 24/11/22
Release Number: 22.11.2
Version Number: 2022.11.23.1

Enhancements

> We've released the following enhancements which will only become available if your account is enabled for Optima Health Roster Integration.

- We've updated Flag Management to provide a new Integration Rule for Optima Health Roster, called 'Rostered onto an Activity', to check if the claimant is rostered onto an activity on the date they claimed their expense item. (187094)
- We've updated Flag Management to provide a new Integration Rule for Optima Health Roster, called 'Rostered onto an On-Call Duty', to check if the claimant is rostered onto an on-call duty on the date they claimed their expense item. (187097)
- We've updated Flag Management to provide a new Integration Rule for Optima Health Roster, called 'Rostered onto a Course', to check if the claimant is rostered onto a course on the date they claimed their expense item. (187098)
- We've updated our suite of API endpoints to accommodate the new integration flag rules. The use of these API endpoints for the new integration rules is only allowed if the account is enabled for Optima Health Roster integration. (18883)

Bug Fixes

- We've fixed an issue where the annual cumulative mileage was not being updated when creating the "Fixed Mileage Deduction" expense item on claim submission. (188950)
- We've updated the home home-to-office mileage deductions when using international address lookups. Now, the deduction will be correctly made when typing in the postcode of the office address rather than using the office icon. (189533)
- We have updated the self-registration options. Now, when the person who is registering enters their home address through the address lookup service, the country for the address will be correctly saved with the other address details enabling the address to later be used for mileage distance calculations. (189587)
- We've made a change to the "My Details" page to prevent an error from occurring when there is no mileage on the current claim to be included in the annual cumulative mileage. (189598)
- We've updated the home-to-office mileage deductions when using international address lookups. Now, the deduction will be correctly made when typing in the postcode of the home address rather than using the office icon. (189608)
