

Release Notes - 06 February 2023

Last Modified on 06/11/2024 2:06 pm GMT

Date: 06/02/2023

Version Number: 2023.2.3.2

Bug Fixes

- We've disabled the "autocomplete" attribute on some sensitive fields in Expenses, such as the password field on the login page, and the password fields on the My Details page. Now, the browsers may not cache the credentials locally, and the security is improved. (187341)
- We've made a change to the annual mileage totals to ensure that the cumulative mileage is updated for all expense items that are of mileage type. (189843)
- We've added a new vehicle type of "van", so that this can be selected when adding a new vehicle, or when the vehicle details are looked up with DVLA, and DVLA have the vehicle type recorded as "van" rather than "car". (189427)
- We've fixed an issue in the mobile app where the address lookup functionality caused an error to occur if the user entered an address search query containing no alphanumeric characters, for example "...". Where alphanumeric characters were used to find an address, no error was encountered. (189923)

Enhancements

- We've updated the Duty of Care Reminder Service with tracing to allow increased observability. (189560)
- We've updated the Knowledge Owl Help and support documentation to reflect our new default colour scheme and our new product name of "Assure Expenses". (183852)
- We've renamed our "Selenity Expenses" product as "Assure Expenses" and as part of this process we've replaced all the corporate and product logos with our new name and icon. (189451), (189452)
- We've added a new option for the import of HSBC credit cards for reconciliation in the Expenses system. (189922)
- Our company name is changed to "RLDatix" and as part of this process we've replaced all the references to our company name which may have previously shown in Expenses as "Selenity" or "Allocate Software" to "RLDatix". (189850)
- Due to the rebranding of the Expenses system, we've updated 3 of the email templates to indicate that the email is from "The Expenses Team" rather than from "The Selenity Expenses Team". We have not made any updates where the email template has been customised by the system administrator. (190373)

Zendesk (for system administrators): As a system administrator you can subscribe to Zendesk for more information. Please follow the link to Zendesk here:
