May - (15/05/2024)

Date: 15/05/2024

Version: 2024.5.9.1

Bug Fixes

- We've fixed an issue that sometimes occurred when you logged into the mobile app with Single Sign-On (SSO) and signed in using the 'Delegate Sign In' option. The issue caused you to not be logged off properly as a delegate. (194961)
- We've made a change to the mobile app so that delegates cannot approve their own claim when the option in **Tailoring | General Options** is set to prevent this. (195246)

March - (21/03/2024)

Date: 21/03/2024

Version: 24.3.15.2

Enhancements

- We've made a change to the loading of the Current Claims screen to improve the

performance. (194624)

- We've improved the performance of the Select Expense screen. Now, when you add an expense item to your claim, the speed at which the list of expense items you are allowed to claim is improved. This allows you to enter your expense item details more quickly. (194627)

February - (05/02/2024)

Date: 05/02/2024

Version: 2024.1.25.3

Bug Fixes

- We've fixed an issue with the action buttons in the mobile app to make them more accessible in dark mode when you set, amend, or remove an address label. (190888)
- We fixed an issue where the wrong options were displayed in the menu when the claim was previously assigned from team approval to an individual. The mobile app displayed the option to assign the claim when it was already in the Assigned Claims and in the Approved Claims section. (192896)
- We've fixed an issue with a numeric user-defined field (UDF) where the value did not save for the UDF if you didn't click on the side before saving. (193679)
- We've fixed an issue in the mobile app that didn't allow you to add a third or more locations when using Build My Journey. (193797)
- We've fixed an issue that appeared when you populated the corporate card data while creating the expense item from the corporate card statement transaction through the mobile app. (193810)
- We've fixed an issue with access to the gallery permissions on some of the later Android devices. (194065)
- We've fixed a bug in the GPS mileage option in the mobile app to ensure that locations are correctly identified and recorded for the journey. (194088)
- We've fixed an issue with photos and video permissions on Android 13 and 14 devices. (194538)

Enhancements

- We've upgraded the GPS mileage component in the mobile app to a functional component so

that we're using more up-to-date technology. (193188)

- We've added an option for resetting the password from the mobile app by providing an email with corresponding details and a link that takes you to the 'Reset Password' view. (193658)
-
