

2024 - New and Updated Features

Last Modified on 19/11/2024 1:33 pm GMT

September 2024 | Duty of Care Documents Enhancements | Email Address Enhancements

Duty of Care Documents Enhancements

We've enhanced the Duty of Care tax documents to include a start date and an expiry date when tax details are provided by the DVLA lookup service.

Additionally, we've added a tailoring option to prevent named delegates from accessing personal Duty of Care documents of the person that assigned them delegated authority for claims.

Email Address Enhancements

We've added a new 'E-mail Address' option in the search results grid of the 'Delegate Logon' option. We've also added the employee's email address in the 'Delegate Logon' view for the Expenses mobile app.

We've added a new search option for employees that allows claimants to search for delegates by Email and Username. We've also included the email address to the summary grid of the search results.

August 2024 | Duty of Care Improvements | Driver Licence Logging and Tracing

Duty of Care Module Improvements

We're rewriting our Duty of Care module into a more modern service. As a result, we've updated the workflows and business logic for the following features within the module:

- Manual upload of driving licence documents
- Automatic lookups
- Driving licence document reviews

We've updated our Duty of Care reminder service to use the new microservices technology. Now, reminder service emails from our updated service come from "admin@expenses-software.com" for both claimants and approvers.

We've also updated our Duty of Care Reminder Service to use the new Licence Check Lookup API

version.

Driver License Logging and Tracing

We've added logging and tracing to the driver licence consent processes to increase our observability.

We've also included account ID information that helps the support team manage any reported issues on the consent processes more easily.

July 2024 | Expenses Rebrand | Mobile App Rebrand | Accessibility Improvements

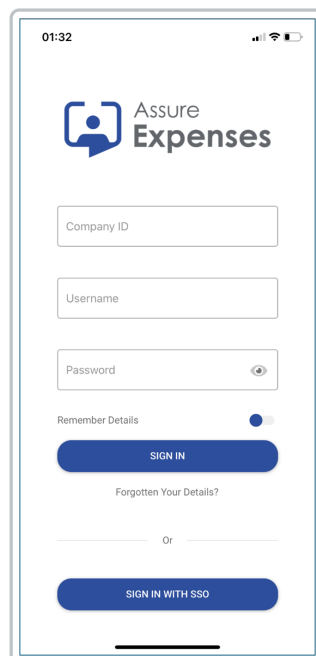

New Image, New Name

We've changed our product name from Selenity Expenses to Assure Expenses and our company name from Allocate Software to RLDatix.

We've also changed our logos and updated the default colour scheme to blue.

Mobile App Rebrand

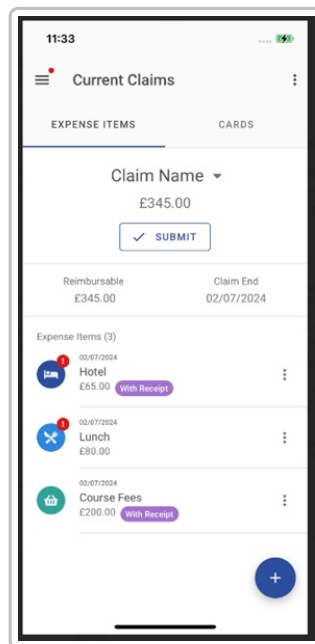

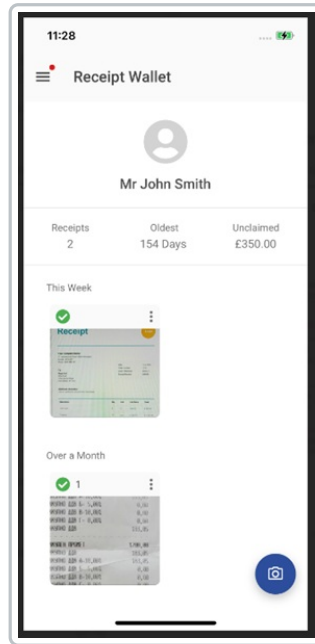

We've updated our branding in the mobile app as well. We've replaced the product logo and name with Assure Expenses, and our company logo with RLDatix.

We've replaced all mentions of Selenity and Allocate with RLDatix, and we've replaced all mentions of Selenity Expenses with Assure Expenses.

We've also changed the default colour scheme for the mobile app from purple to blue to match our

new corporate branding.

Accessibility Improvements

We've updated the mobile app to improve accessibility on all screens when you select the dark theme.

April 2024 | 'Filter Rules' Changes and Improvements

'Filter Rules' Configuration Pages Improvements

We've significantly improved the performance of the 'Filter Rules' configuration pages.

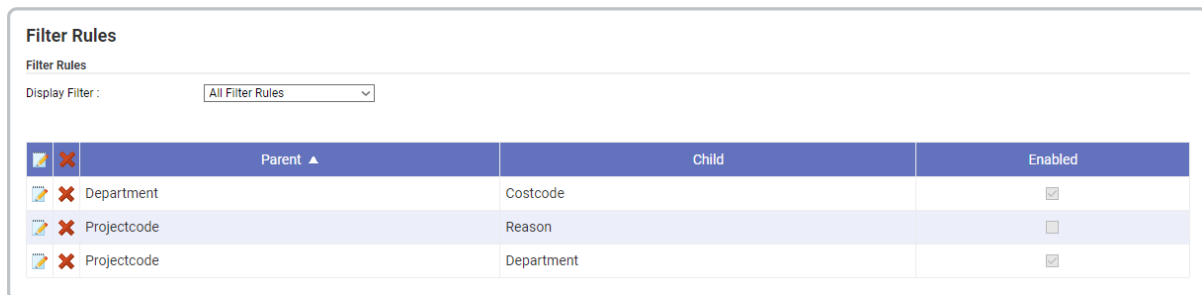

When you add a new filter rule or edit an existing one, we only retrieve the necessary records for the display panel rather than retrieving every parent and child element.

We've also prevented duplicate department, cost code, and code filter rule records, when tailoring options are configured to use descriptions rather than codes.

'Filter Rules' Saving Process and Delete Option Improvements

We've changed the saving process of the new filter rule options. Previously, the saving process occurred after you added all changes and clicked "save". Now, the saving process occurs as you create the new records and populate them into the summary display.

We've changed the delete option to work for each individual change rather than by page.

The screenshot shows a web interface titled "Filter Rules". Below the title, there is a "Filter Rules" label and a "Display Filter:" dropdown menu currently set to "All Filter Rules". Below this is a table with three columns: "Parent", "Child", and "Enabled". The table contains three rows of filter rules, each with a delete icon (X) and a refresh icon (circular arrow) in the first column.

	Parent ▲	Child	Enabled
	Department	Costcode	<input checked="" type="checkbox"/>
	Projectcode	Reason	<input type="checkbox"/>
	Projectcode	Department	<input checked="" type="checkbox"/>

March 2024 | Mobile App 'Current Claims' and 'Select Expense' Improvements

Mobile App 'Current Claims' and 'Select Expense' Improvements

We've made a change to the loading of the **Current Claims** screen to improve the performance.

We've improved the performance of the **Select Expense** screen to enable you to enter your expense item details more quickly. When you add an expense item to your claim, the speed at which the list of expense items you are allowed to claim is improved.

February 2024 | NHS Databases Grid Enhancements | Security Improvements | Mobile App GPS Mileage and Reset Password Enhancements

NHS Databases Grid Enhancements

We've made enhancements that apply to NHS databases only. We've added a new column in the work address summary grid on the employee record page and in the user's 'My Details' page to indicate which work address is the Nominated Base.

Security Improvements

We've made a security improvement to prevent session hijacking attacks by destroying the cookies after each session ends so that they can no longer be reused.

Mobile App GPS Mileage and Reset Password Enhancements

We've upgraded the GPS mileage component in the mobile app to a functional component in order to use more modern technology.

We've also added an option to reset your password from the mobile app by sending you an email with a link that takes you to the 'Reset Password' view.

January 2024 | Signoff Group Enhancement

Signoff Group Enhancement

We've added a new option for a stage in the Signoff Group "Only if claim reimbursable amount exceeds". This option allows you to redirect the claim to the selected approver when the reimbursable amount exceeds the value set within the Signoff Group.
