April 2024 | 'Filter Rules' Configuration Pages Improvements

Last Modified on 17/02/2025 10:23 am GMT

We've significantly improved the performance of the 'Filter Rules' configuration pages.

When you add a new filter rule or edit an existing one, we only retrieve the necessary records for the display panel rather than retrieving every parent and child element.

We've also prevented duplicate department, cost code, and code filter rule records, when tailoring options are configured to use descriptions rather than codes.
