Date: 19/09/2024

Version: 2024.9.16.2

## Enhancements

- We've added a new tailoring option to prevent a named delegate from accessing the personal Duty of Care documents of the person who has assigned them delegated authority for claims. (191420)
- We've added a new search option for employees that allows claimants to search for delegates by Email and Username. We've also included the email address to the summary grid of the search results. (197059)

## SSL Certificate

- We will be updating our SSL certificate, which could affect the single sign-on authentication (SSO). This means that your Expenses users might not be able to access Expenses through SSO.

If your organisation is using our SSL public certificate, please notify your IT team and log a support ticket so that we can provide them with the new certificate.
