

2025 - New and Updated Features

Last Modified on 01/12/2025 10:38 am GMT

Assure Expenses FY25 Q3 & Q4 | Highlights and New Features

We've been busy in the second half of FY25, delivering a wave of enhancements to **Assure Expenses** — from performance upgrades and audit improvements to smarter compliance and document handling. These updates are already helping organisations work smarter, stay compliant, and reduce admin.

📄 Here are just a few highlights from Q3 & Q4:

- **Duty of Care module upgraded** – now powered by microservices.
- **New reminders** – new alerts for managers when driver compliance reviews fail.
- **Smarter mileage claims** – prevents drivers claiming as a driver and a passenger.
- **Delegate restrictions** – improved access control for driver compliance information.
- **Audit log enhancements** – expanded tracking and claim-specific search.
- **Foreign currency refund support** – better handling of corporate card refunds.
- **Improved employee deletion checks** – clearer reasons when records can't be removed.
- **Driver Compliance menu revamp** – more intuitive access to vehicle and licence records.

Assure Expenses FY25 Q1 & Q2 | Highlights and New Features

We're pleased to share an overview of all the new and enhanced features we introduced to **Assure Expenses** throughout the first half of FY25. We introduced a series of enhancements for Assure Expenses to improve functionality and usability across key areas.

Your feedback and ideas have played an essential role in shaping these improvements, and we're excited to bring you new functionality and updates that better support your expenses process. ☒

☒ Key updates include:

- **Mobile App Performance** - Improved key pages loading and responsiveness for a smoother user experience.
- **Enhanced Accessibility** - Dark theme accessibility is now refined across all pages, and we've updated the app's colour scheme and product name to align with our new corporate branding.
- **Filter Rules Overhaul** - The process for creating and updating filter rules has been restructured, offering a more intuitive experience for system administrators.
- **Duty of Care Module Upgrade** - We're currently rebuilding our Duty of Care module using modern microservices technology. This update allows for greater scalability and supports the development of new features requested through customer feedback.
