*Date: 23/05/2025*

*Version: 2025.5.21.2*

## Enhancements

- We've added the claimant's username to the standard Duty of Care email templates that notify the approver that action is required. This allows easier identification of the claimant that the documents relate to. (200792)

## Bug Fixes

- We've fixed an issue in the 'My Team's Vehicle Documents (awaiting Review)' summary page to filter out inactive vehicles when using the Duty of Care setting 'Vehicles are inactive if the date is outside of the vehicle's start and end dates'. (200817)
