# May 2025 to April 2026 - New and Updated Features

Last Modified on 27/07/2026 3:10 pm BST

## Assure Expenses FY26 Q3 & Q4 | Highlights and New Features

The second half of FY26 has been all about making**Assure Expenses** smarter, simpler, and more aligned with how you work. From expanding 'Driver Compliance' tools to enhancing data management and claim accuracy, these updates reflect your feedback through our **customer sessions and Ideas Portal**.

 Let's take a look at what's new:

- **'Driver Compliance' - streamline the driver licence ad-hoc credit top-up service.** We've simplified the process for topping up licence check credits with clearer notifications and direct actions.
- **Allow 'Driver Compliance' options to be specified for individual mileage expense items** to provide more detailed control over which 'Driver Compliance' checks are applied in different scenarios.
- **Additional columns for all 'Driver Compliance' menus** to add extra information, such as employee names, to improve visibility and identification in menus.
- **Enhancements for financial year definitions** to improve financial year settings with safeguards to prevent conflicts with retention and reporting data.
- **Updates to the claim approval page display for teams** to optimise how the system displays large volumes of claims, allowing faster access and approval.
- **Updates to ensure the main administrator is set** so system alerts are always received.
- **Implemented excess mileage options for the mobile app** to align with the web functionality.
- **Improved system observability for better performance monitoring.**
- **Updated colour branding for the mobile app and API documentation.**
- **Updated address lookup service for international addresses** with more detailed and accurate location data.
- **Streamlined the Assure Expenses Expedite receipt validation checking service** to deliver faster results.
- **New 'Driver Compliance' history log for driver licence lookup credit usage** for better visibility and tracking.
- **Improved the process for failed 'Driver Compliance' documents** to enable users to update and resubmit failed documents without creating new records.
- **Extended data purge options for GDPR data retention rules to include corporate card transactions** for better GDPR compliance.
- **New standard reports for 'Driver Compliance' based on licence points** for proactive risk management.
