Last Modified on 17/12/2025 3:56 pm GMT

Date: 17/12/2025

Version: 2025.12.16.3

Enhancements

- We've made enhancements to the mobile app for improved user flow and handling of specific expense types, such as 'Relocation Mileage', 'Fixed Excess Mileage', and 'Fixed Allowances'. Now, for any allowance type expense item, the 'Allowance' checkbox displays as read-only and cannot be unticked for the expense item when the claimant is adding it to their current claim.

Bug Fixes

- We've fixed an issue where the 'Allowance' and 'Number of Allowances' fields were incorrectly displayed in the 'Build My Journey' section for mileage expenses when relocation mileage was disabled. (203087)
